

WLTA ANNOUNCEMENT:

Welcome Sean Holland as the new Co-Executive Director of the WLTA!

Sean will assume duties and responsibilities of running the business of the WLTA over the next year, as I transition out of the position.

Sean will support the WLTA in continuing to serve as a vibrant and valuable asset to its members. He worked in the title industry in Washington for over 20 years, first as a claims counsel and then as an underwriter. He has served the WLTA in many roles: annual seminar speaker, WLTA president, and co-chair of the Legislative Committee. His legislative work has helped our association deal with the many issues facing the industry over the years. Sean has continued to support the Legislative Committee since his retirement from underwriting last year.

I have been privileged to have this roll for the last 13 years, and have enjoyed every minute. However it is time for me to move on and let Sean take the reins of managing the association. As I enter the 59th year in the industry, I will still be involved, in particular as a member of the Legislative Committee, the Education Committee and the Examiners Manual Committee. I hope to help maintain the Manual and update various chapters as needed.

George
